

## Release Notes

CWS Updates

## Enhancements & New Features

The .30R4 release include many new capabilities for the EVO Snap\* platform, as well as multiple smaller enhancements:

### 1. CMS Updates to Support Same Day Processing

Front-End/Market: United States

Updates were made so that payment data can be added to a subscription at any time and the subscription can be processed on the same day, or later, with no date or time restrictions.
