

Release Notes

NGTrans Updates

Enhancements & New Features

1. Update NGTrans for Level2\Discount Location

Level2Data\DiscountAmount is now getting mapped correctly due to the restructuring of the Level2Data element in PTLS.

TFS ID	Description
153854	Update NGT for Level2\Discount Location

2. Addition of Terminal Software Application Name and Software Version Mapping

Mapping of new fields Software Name and Software Version has been added to NGTrans transaction messages in order to track terminals' and integrators' application versions. These field values will be sent in every transaction request by terminal software application transaction processing platform.

TFS ID	Description
179924	Terminal Software Application Name/Version Support
