Release Notes

CWS Updates

Enhancements & New Features

The .33R1 release includes many new capabilities for the EVO Snap* platform, as well as multiple smaller enhancements:

1. Tip Adjust Support

Front-End/Market: United States (NGTrans)

The new Tip Adjust feature for the EVO Snap* Platform will include tip adjust on retail and restaurant sale transactions in order to support ISV application solutions or terminals processing through Snap*.

Tip adjust workflow is supported for the NGTrans adaptor. For more information, please see the Tip Adjust Integration Guide for Platform.
