EVO Dashboard

EVO Dashboard was designed based on merchant feedback and technical evaluations of existing EVO products. It was determined through these reviews that there was a great benefit for merchants to be able to conduct reporting and transaction management within the same system that contains the payment acceptance workflow. Thus, Dashboard was created to consolidate the Virtual Terminal and the reporting and transaction capabilities into a single, fast, scalable, and easy to use product for both mobile and web-based users.

Regions

- * United States (VT Lite users only)

Resolved Issues

We addressed the following issues in the current release to ensure your experience is top notch!

- * **Pay Now** link in downloaded PDF directs customers to Dashboard login page
- * Minor UI/UX fixes
