Release Notes

CWS Updates

Enhancements & New Features

The .35R7 release includes updates to support PCI PIN, Account Updater, and other Platform improvements:

PCI PIN Updates

Updates were made in order to comply with February 2021 mandates concerning the creation, storage, import and export of Derived Unique Key per Transaction (DUKPT) keys. These changes are internal only.

TFS ID	Description
212206	PCI PIN Changes

Account Updater Batch Upload Archive Process and Cleanup

A recurring archival process was implemented for Batch Uploads that were never processed. Batch Uploads with a status of "Sent" for 30 or more days will be archived.

TFS ID	Description
180642	Archive process and cleanup of Batch Uploads that were never processed

Remove MID and TID from Platform Receipts

Per upcoming Visa regulations, Merchant IDs and Terminal IDs cannot be included on receipts.

TFS ID	Description
215877	Disable MID/TID rows on platform receipts
