# Release Notes

CWS Updates

# Resolved Issues

We addressed the following issues in the current release to ensure your experience is top notch!

## IpAddress field not required on 3DS transactions

An issue where the IpAddress field was incorrectly being required on 3-D Secure transactions has been resolved.

TFS ID	Description
221997	IpAddress being required on 3DS txns

## Polish characters now able to be sent on 3DS transactions

If a Polish name is now sent in with non-English characters (ex. złotę gęślą jaźń Jasiek), it will no longer cause an error to be thrown and will appear throughout the call and in the database as English characters (ex. "zolc gesla jazn Jasiek").

TFS ID	Description
223004	3DS 2.x Flow Invalid Character being sent to nSoftware

## Incorrect mapping for requestorAuthTimeStamp field

An issue where the 3DS Addin was mapping default date value for requestorAuthTimeStamp when not set on the CWS Request has been resolved.

TFS ID	Description
223494	3DS Processor Mappings Incorrect

## Allow LogEvent and LogLevel to be configurable

LogEvent and LogLevel are now configurable fields for 3DS transactions.

TFS ID	Description
223497	Allow LogEvent and LogLevel to be configured
