Release Notes

CWS Updates

Resolved Issues

We addressed the following issues in the current release to ensure your experience is top notch!

Support for no decimals on 3DS Full Flow transactions

An issue was resolved where a previous hotfix incorrectly assumed merchants could not submit CWS transactions without 2 decimals. New code guaranteed the amount was formatted with correct number of decimal places.

TFS ID	Description
225906	Support for no decimals on 3DS1 and 3DS2 full flow

Support for no decimals on 3DS As a Service transactions

An issue where not including decimals in the transaction request would cause it to fail has been resolved.

TFS ID	Description
225916	No decimals not working on 3DSaaS

Formatting error on MasterCard messageExtension field

An issue where the formatting on the MasterCard messageExtension was incorrect (including spaces where there shouldn't be) has been resolved.

TFS ID	Description
226510	Formatting Error on MasterCard messageExtension

RequestorChallengeIndicator not properly set on 3DS 2.1 Exemption

An issue where threeDSRequestorChallengeIndicator was not being properly set on 3DS 2.1 exemption transactions has been resolved.

TFS ID	Description
226613	RequestorChallengeIndicator not properly set on 2.1 Exemption
