Release Notes

CWS Updates

Resolved Issues

We addressed the following issues in the current release to ensure your experience is top notch!

3DS: Allow Condition/optional fields to be sent on the response.

Updates made to 3DS ARes response to include all conditional/optional fields on the response, except for: WhiteListStatusSource & sdkEphemPubKey

TFS ID	Description
229574	3DS: Conditional/optional fields on ARes not being sent back on response

NGTrans: Allow EBT approval codes to be alphanumeric values

Allow the field TenderData/VoucherApprovalCode to be an alphanumeric value

TFS ID	Description
225107	DSP: Update NGTrans EBT code to allow alphanumeric values for approval code

CMS: Allow \$0 item on invoice

Modifications made to allow a \$0 item to be included on an invoice

TFS ID	Description
227411	CMS: Support zero dollar item on invoice

New Functionality

We have added this new functionality to ensure your experience is top notch!

eService: eSlips receipting functionality

eService requires integrators have option to call their eSlips/eReceipts transaction type. Slips supports the following workflows:

- Email/SMS receipt following approved authorization
- Email/SMS receipt following declined authorization
- Email/SMS receipt following transaction timeout
- Email/SMS receipt following chip malfunction

TFS ID	Description
231215	eService - Implement new eSlip message support
