Enhancements & New Features

Support for American Express SafeKey 2.0

American Express SafeKey 2.0 is a security solution designed to help you detect and reduce fraud on online or in-app purchases.

Leveraging the global standard, EMV® 3-D Secure, SafeKey 2.0 allows you and the Issuer to exchange detailed customer information to validate identity and provide a safe and seamless checkout experience.

De-commission support for 3-D Secure 1.0

The Snap* platform will be discontinue support for 3-D Securer version 1.0 support per card brand mandates. The card brands are committed to supporting the industry's transition from 3DS 1.0.2 to EMV 3DS; therefore, effective October 2022, ALL card brands will discontinue support for 3DS 1.0.2 and all related technology.

Beginning in October of 2022, the 3 major card brands will no longer support 3DS Version 1. While the dates for each card brand are not the same, **EVO will no longer be supporting 3DS V1 starting October 14th, 2022.**

De-commissioning dates by card brand:

- American Express: 10/14/2022
- Discover: 10/14/2022
- Visa: 10/15/2022
- MasterCard: 10/18/2022
- Maestro: 10/18/2022
- JCB: 10/18/2022

Include TxnData/STAN on returns

Allow the platform to copy SystemTraceAuditNumber (STAN) from Authorize and Auth&Cap responses to RETURN requests for both ReturnUnlinked and ReturnByld. This will be available for all available industry types.

Resolved Issues

We addressed the following issues in the current release to ensure your experience is top notch!

TFS ID	Description
249070	Automatically request full card range update when it receives data back from directory server that cannot be processed (i.e. bad serial number or individual update card range for which we do not currently have).
248397	Remove industry type limitation on Incremental Adjust. This is to allow ecommerce merchants the ability to \$0 adjust to keep an authorization open until goods are shipped.
253078	Transaction Management Service (TMS) pagination issue for EVO Mobile.
